

Remarks

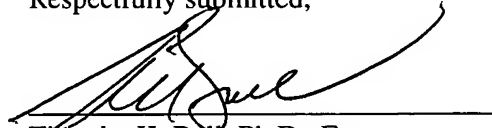

This paper is submitted in response to, and is believed to be fully responsive to, the Restriction Requirement referenced above.

The Applicant herewith elects Group III claims 11-20 without traverse and elects plant cells for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Claims 1-10 and claims 21-24 are cancelled with this response. The applicant herewith has amended Claim 11, which was originally filed as being dependent on claim 5, and is now an independent claim. With this response, Claims 11-20 are pending. The amendments to the claims do not add new matter and are believed to be fully supported by the specification as filed.

It is respectfully requested that the Examiner enter the amendments to the claims and examiner the claims on the merits.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Timothy K. Ball', is written over a horizontal line.
